How Drug Companies Trick Pain Sufferers Into Addiction... And How to Stop Them Dead in Their Tracks

WHAT DR. NORTON WILL TELL YOUR AUDIENCE

- What kills 10 times more Americans than illegal drugs, and how to avoid being a victim.
- The devastating quality-of-life costs of chronic pain.
- Which pains continue to defy mainstream medicine and impact the most lives.
- How the majority of pain sufferers are caught on the “M and M Road to Ruin” and miss the “C and C Highway to Healing.”
- Why “Say No to Drugs” will never succeed and the healthcare crisis cannot be solved even if everyone gets health insurance.
- The best kept secret solution to pain and declining health.
- The calculated medical conspiracy to discredit alternative healthcare approaches that can stimulate true healing.
- Action strategies to restore and sustain youthful vibrant health into old age--what is our life expectancy anyway?
- A plan to regain personal empowerment and stop the drug companies from getting rich at their customers’ expense (financially and quality of life).
- How drug addiction occurs and how to escape it.
- The mysterious and powerful mind-body connection in pain.

As many as 100 million Americans struggle with ongoing pain. 27% of them are in pain right now. \$86 billion was spent on treatments for the spine in 2005 alone (the biggest jump was in narcotic pain pills), but the proportion of people with impaired function actually increased.

Tragically, hundreds of thousands of people are dying every year from the unforeseen consequences of treatments they’re receiving for their pain and illness. Vioxx alone may have caused 55,000 deaths. Many have “tried everything” to resolve their pain, and are on the verge of giving up. . . **but there is a real solution.**

Dr. Norton, in his new book *Where Does It Hurt?*, reveals the proven approach he’s used for over 25 years with thousands of patients--to not only resolve persistent pain but to restore health to a level many thought no longer possible.

Dr. Norton will empower your listeners with critical information about how to navigate the healthcare minefield and achieve life-transforming results.
